Dear Sir/Madam,

Provisional GB Type Approval - Motorenfabrik Hatz GmbH & Co. KG

Please find attached details of the provisional GB type approvals which were requested as part of your recent application.

The attached document and the numbers listed will allow you to continue to place your non-road internal combustion engines in the Great Britain market, where applicable. Please take a few moments to check for any errors or missing approvals.

To ensure the ongoing validity of the provisional GB type approvals, you will need to keep us informed of any changes to the EU or UN type approvals on which they are based. Provisional GB approval numbers will be valid for a period of up to 2 years from issue, extension, or correction, at which point they will need to be converted to full GB approvals, or renewed, depending on the requirements at that time.

If you have any questions or concerns about the process going forward, please let us know.
